

## *ASTA/NJ Cadet Teacher Training Course*

### *Schools Utilizing CTTC Graduates*

The School District of the Chathams issues a formal listing of Cadet teachers to the parents of string students. Parents make arrangements for lessons. Other district string teachers hand pick students and match them with Cadet teachers. The Tenafly Public School District is developing other ways to utilize these young teachers, including having their Cadets assist with elementary school string lessons. Please send us your ideas to share on this page!
